Workshops are intended as intensive sessions to focus on calls from "nonstandard" positions and are open to all dancers who have completed the respective program.

DBD (Dance by Definition): The caller uses the standard definition of the call, as defined by Callerlab®. But, the starting formations and each dancer's position may be decidedly different than dancers are used to.

Intro sessions are intended to provide an introduction to the indicated program and are open to all dancers who are comfortable at the previous program.

"Plus Hot Hash" is plus patter calling, but with no pauses between formations, little or no cueing of calls, and increased music tempo. Recommended only for dancers comfortable at Plus who are prepared for a bit of aerobic exercise.
